Strategic plan 2011-2015

**Management contract** 

# talaiat pla estratègic 2016-2020

## **Objectives**

- To empower the management independency
- Co accountability of the professionals
- To strength clinical leadership
- To empower professionalism values
- Management transparency
- To increase productivity and efficiency

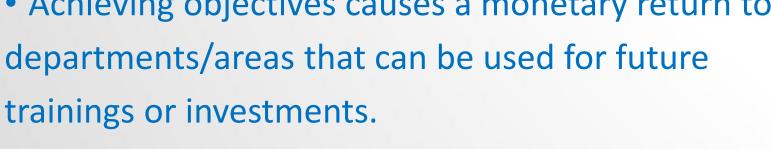

# **Management contract. That is?**

• It's a fundamental tool used to transfer the management to the teams. What do we have to do, how, and the resources we need to.

- It's a voluntary agreement between departments and/or functional areas with the General Direction, framed in the Strategic Plan.
- Achieving objectives causes a monetary return to

## **Activity**

- Is measured in standard measure units (SMU).
- Activity in transformed hours.
- Activity is also related to waiting list.

## **Productivity**

- Activity is calculated in transformed hours
- Some ratios must be accomplished

**Medical care hours** 

**Available hours** 

>= 80%

### Performance

**Activity hours** 

**Assistencial activity hours** 

### **Productivity**

**Activity (hours) + support activity (hours)** 

**Contracted hours** 

>= 80%

- Service related
- Not overcoming 50% involves not achieving management contract, no revenues are considered.
- Between 50 and 90%, this percentage is returned.
- Overcoming 90% means achieving 100 % of the return.

## Return

Fixed part

 Variable part. Achieved saving is divided between department/functional area and institution, as far as balanced budget exists

## **Results**

| YEAR | SERVICES<br>NUMBER | BUDGET % | QUALITATIVE<br>RESULTS % |
|------|--------------------|----------|--------------------------|
| 2011 | 23                 | 23%      |                          |
| 2012 | 41                 | 50%      | 90%                      |
| 2013 | 41                 | 50%      | 89%                      |
| 2014 | 45                 | 53%      | 84%                      |
| 2015 | 47                 | 56%      | 81%                      |

During the implantation period of Management Agreements (2011-2014), these helped achieve the following results:

- +15% increase in activity (in healthcare UME's).
- -4% decrease in personnel expenditure.
- -19% decrease in internal pharmacy expenditure.
- +6% increase of storage expenditure below the % of activity growth.
- +10% increase of prostheses expenditure below the % of activity growth
- -16% decrease of external complementary tests expenditure.

## **Conclusions**
