WHAT UNITES US?

- We are all organisations formed by people who serve people.
- We promote health and social care systems that encourage public-private cooperation at the service of public policy.
- Our philosophy of health and social services is that these should foster people's health, well-being and autonomy.
- We adopt professional, results-oriented management standards, conducting evaluation processes and sharing best practice.
- We are committed to sustainability, transformation and social responsibility.
- We support research and innovation focused on clinical practice.
- We look to the future from a perspective that is open to the world.

BACKGROUND

WHO WE ARE

The commitment to improving people's quality of life has made La Unió a reference association for organisations engaged in the health and social care system.

A leading player in this system, La Unió engages in various lines of action:

- Mediation with government
- Collective bargaining over working conditions
- Promotion of professional development
- Lobbying, creating opinion
- Generating knowledge and innovation
- Helping to design the strategic vision that guides the health and social care system
- Promoting good practice in the sector

The Catalan health system is based on inclusive, quality social care.

- With universal access, a system considered one of the best in the world.
- With a stable, inclusive, professional and socially responsible network for the provision of care.
- Backed up by positive results as regards people's health and welfare:
 - More years of life in good health.
 - Longer life expectancy.
 - Lower mortality.
 - Better perception of one's own health.

MOVING FORWARD WITH YOU

+ OPEN

to the world and to new challenges

Our gaze open to the world, we promote changes in organisations and in the health and social care system

- ✚ We promote **+FUTUR**, a collective project launched with member organisations to anticipate future scenarios in the provision and organisation of services and to promote the necessary changes.
- ✚ We encourage participation and cooperation, and contribute to improving governance and management instruments, the accreditation system, planning, the catalogue of services, contracting and payment systems, information and evaluation systems and results-based accountability.
- ✚ We position ourselves with a view to influencing health and social debate.
- ✚ We are members, among other organisations, of the International Hospital Federation, a body present in more than one hundred countries that works for the sustainability of health systems.
- ✚ We also cooperate with international institutions with a view to establishing contact with leading organisations of interest, and to learn about and disseminate experiences.
